

Farmers' Markets in the Central Coast Region

Below is a list of active farmers' markets in the region, including the status of Electronic Benefits Transfer (EBT) access at those markets. The EBT system has replaced food stamp vouchers with a debit card for people who qualify for food assistance. Increasing numbers of farmers' markets are establishing EBT acceptance as a means to increase access to fresh fruits and vegetables while expanding business for their farmer-vendors.

Mercado de Agricultores de la Costa Central

La de arriba es una lista de mercados de agricultores activos de la región. Incluye el estado de la Transferencia Electrónica de Beneficios, (TEB) en esos mercados. El sistema TEB ha remplazado la estampilla de comidas por una tarjeta de crédito para personas que califican para asistencia alimenticia. Un número creciente de mercados están aceptando la TEB para aumentar el acceso a frutas y vegetales frescos a la vez que expanden las ventas de sus agricultores-vendedores.
